Training program:

SAFe® for Teams

Info:

Name:	**SAFe® for Teams**
Code:	**SAFe-teams**
Category:	SAFe
Target audience:	architects developers sm management po
Duration:	2 days
Format:	50% lecture / 50% workshop

Build the skills needed to become a high-performing team member of an Agile Release Train (ART) – and learn how to collaborate effectively with other teams – by becoming a SAFe 5 Practitioner.

During this two-day course, gain an in-depth understanding of the ART, how it delivers value, and what you can do to effectively perform your role using Scrum, Kanban, and XP. Learn how to write stories and break down features, plan and execute iterations, and plan Program Increments. Finally, learn about the continuous delivery pipeline and DevOps culture, how to effectively integrate with other teams in the program, and what it takes to continuously improve the train.

It's all about the content.

- Introducing the Scaled Agile Framework (SAFe).
- Building an Agile Team.
- Planning the Iteration.
- Executing the Iteration.
- Executing the Program Increment.

Training program
